

# Meeting and banquet rooms

## Council Chamber

The famous Beraadzaal or Council Chamber – where the shipping barons of old times came together – is completely intact. Under the original open-worked brass chandelier you will find a monumental table. Dark tropical woods such as mahogany, ebony and calamander wood are worked into the panelling. Everything designed entirely by the interior designer T. Nieuwenhuis. The perfect location for your meeting or a private dinner, both up to 22 persons. A special ambiance for a reception. It is almost an honour to be a part of this.

	Surface		Dimensions in meters
