Business & Festive meetings

With a meeting, presentation or a more informal get together like a reception or dinner, you have a certain goal in mind. You take care of this goal and we will take care of the rest. Our team is completely devoted to your service with the right human touch. Involved, flexible and hospitable. This is not our 'formula', but it is in our character.

Nothing is more useful and efficient than, in between the meetings and discussions, to clear your head. A coffee break under the beautiful stained glass ceiling in the impressive stairway or a short walk along the Amsterdam canals? Have a drink together to the agitated day in our bar/lounge full of atmosphere afterwards?

You can choose between 8 different rooms, from board and banquet rooms up to a wine cellar. The maximum capacity is 22 persons in a board room set up, 60 in a theatre set up, 30 for a wine tasting in the cellar and 250 for a reception. Bigger groups are possible at request. The most impressive hall is the famous "Beraadzaal", where the shipping barons used to have their meetings. This room is still completely intact, including all the original furniture.

In our boardrooms you can make use of all the thinkable advanced audio visual equipment. A beamer with screen and a flip-over are included in the price.

For more detailed information or to make a reservation you can contact our reservations department. Naturally you are more than welcome for a tour.

Council Chamber

The famous Council Chamber – where the shipping barons of old times came together – is completely intact. Under the original open-worked brass chandelier you will find a monumental table. Dark tropical woods such as mahogany, ebony and calamander wood are worked into the panelling. A beautiful chimney. Everything designed entirely by the interior designer T. Nieuwenhuis. The perfect location for your meeting in boardroom set-up or a private dinner, both up to 22 persons. A special ambiance for a reception. It is almost an honour to be a part of this.

Seven Seas

In restaurant Seven Seas you can dine with groups up to 80 persons. You will dine at oblong tables for four to eight persons per table. In case you would like to make use of the whole restaurant, you can come with a group up to 120 persons at request. This is possible in combination with a stay over for the most part of the group. At request it is possible to hire restaurant Seven Seas for a presentation or fashion show.

Wine safe

A wine tasting under a starry sky. Behind the huge door of the former bank safe from the Shipping House, nowadays you will find a "wine safe". You will enjoy twice as much from wines by the special and timeless atmosphere, from our house wine up to exclusive top wines. It is a perfect location for the aperitif of your dinner, a wine tasting, possible combined with a cheese tasting or an informal reception. At request it is also possible to organize a meeting. The space at the wine safe is 38 square meters, the wine safe itself is 14 square meters. The wine safe does not have daylight.

Ray's club

This is our largest room with its own bar. Ideal for welcoming your guests or simply have a nice break during your meeting, it is also the perfect location for a reception up to 150 persons. The position in the souterrain makes it a typical Amsterdam sight: passing legs and bicycle wheels. You can also organize meetings in the Ray's club, but you have to take into account that the club has limited daylight. The effectively space with chairs and tables is 59 square meters. The coffee/the breaks and informal lunch can take place at the other side of the Ray's club, because there we can make a V-shape.

Ray's Club & Wine safe

The Kajuit and the wine safe together including the general spaces in between, offer the possibility for a reception or party for up to 250 persons. You can have the disposal of your own entrance.

The staircase has several possibilities. The Van der Mey Hall is available in combination with one of the meeting or banqueting rooms, or an overnight stay.

At request there are several combinations possible for the above mentioned spaces and rooms.
